

# Parts Tech AI

Gerardo Alcocer  
Mathilde Vankelegom  
Oscar Chavez

# Objectives

- **Facilitate** the look up of automotive parts.
- **Create** a natural interaction, such as a conversational experience.
- **Avoid** entry barriers like downloading an app.

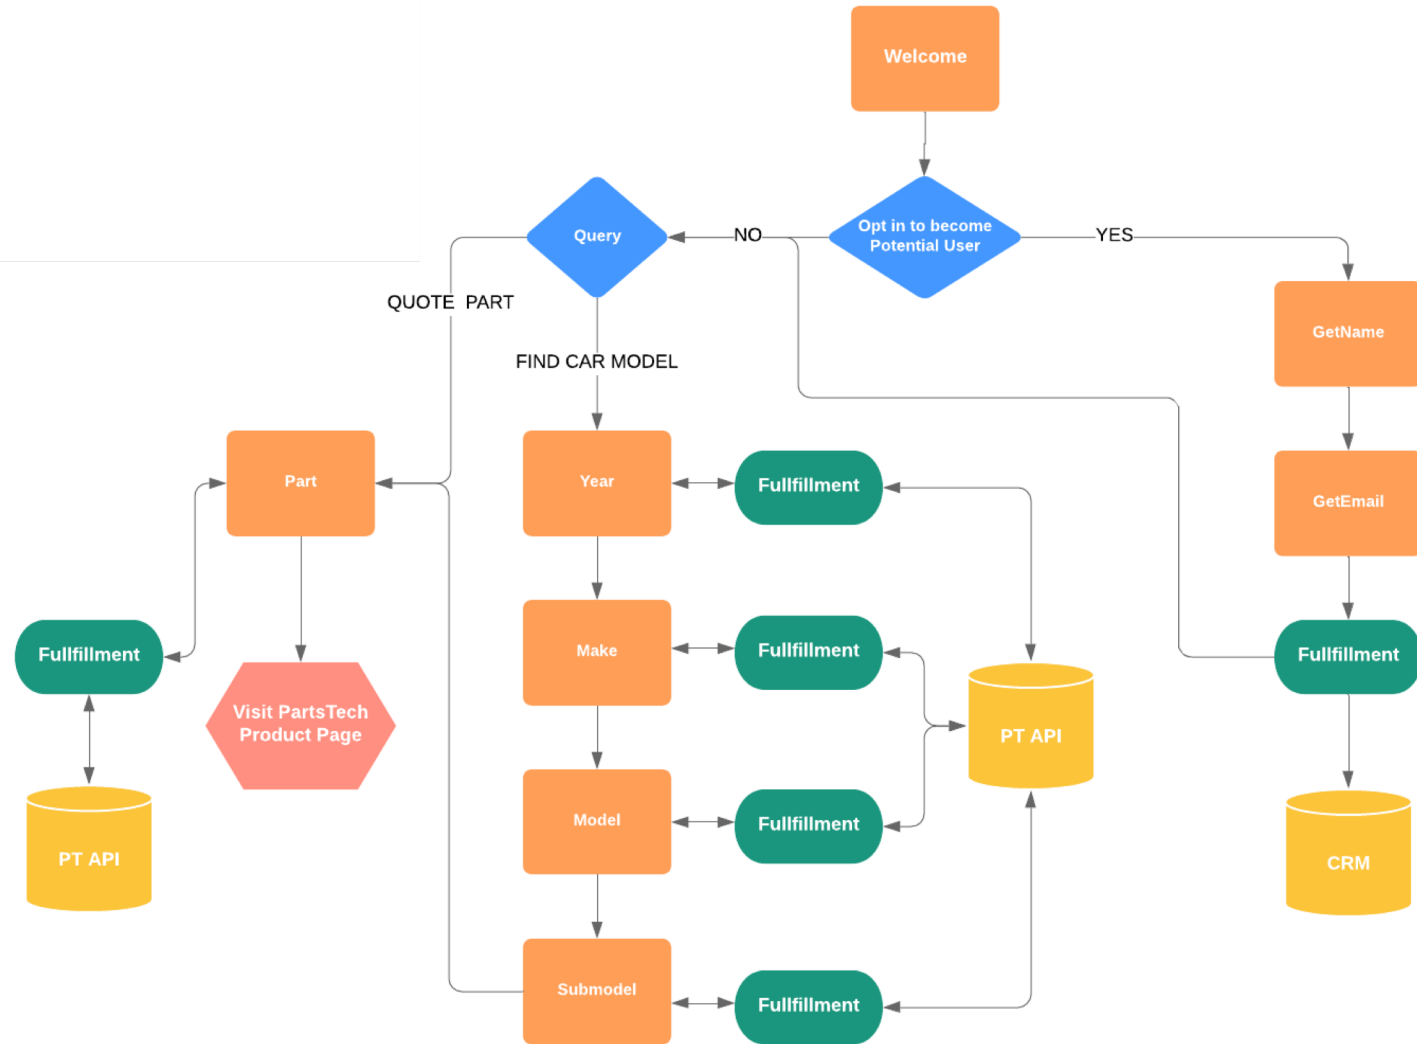

# Goals

- Integrate the PartsTech API
- Create a chatbot on top of the API.
- Use NLP to differentiate entities
- Create a smart chatbot.
- Allow clients to find or quote automotive parts
- Track new and potential clients.
